April 2010

## Las Vegas, NV

**Cannery** has improved double-deck penetration.

**Hard Rock** has improved penetration at double deck and high limit shoes and removed its 6:5 CSM games but has worsened shoe penetration on the main floor.

Double-deck penetration improved at **Orleans**.

**Terrible's** has improved shoe penetration but worsened penetration at double deck.

**M** has worsened penetration on its h17 shoe games.

Double-deck penetration worsened at **Gold Coast**.

The double-deck games on the main floor at **Treasure Island** have been converted to six deckers.

**Wild Wild West** has converted a shoe game into a 6:5 single-decker.

**Golden Nugget** now pays only 6:5 on naturals at the eight deckers by the pool.

Switched blackjacks are treated as normal 21s on the Blackjack Switch tables at both **Wynn** and **Encore**.

Due to ongoing renovations, **Tropicana** has greatly reduced the number of its blackjack tables.

## Reno, NV

**Harrah's** has improved penetration on its high limit single deckers.

**Terrible's Sands Regency** has worsened single-deck penetration.

**Atlantis** has worsened double-deck penetration.

**Boomtown** has converted most of its single-deck games to double deckers and shoe games.

## Carson City, NV

**Terrible's** in Dayton no longer offers table games.

## North Lake Tahoe, NV

**Cal-Neva** is temporarily closed. Single-deck penetration worsened at **Tahoe Biltmore**.

## South Lake Tahoe, NV

**Horizon** has removed all of its table games.

**Harrah's** has removed its 6:5 four deckers.

**Lakeside Inn** converted many of its single deckers to double deck and six-deck shoes.

## Elko, NV

**Gold Dust West** has converted all of its games to single deck.

**Red Lion Inn** has added a Reno rules single decker.

**Stockman's** has worsened penetration at double deck.

## Hawthorne, NV

**El Capitan** no longer offers table games.

## Minden, NV

Table games are back at **Carson Valley Inn** with six tables of double-deck blackjack.

## Wendover, NV

**Red Garter** has worsened double-deck penetration.

## Winnemucca, NV

**Parker's Model T** and also **Red Lion** no longer offer table games.

## Auberry, CA

**Mono Wind** no longer offers blackjack.

## Coarsegold, CA

**Chukchansi Gold** has added three tables of Spanish 21.

## Fresno, CA

Years-old information on **Table Mountain** has been updated.

## Geyserville, CA

Years-old data on **River Rock** has been updated.

## Hopland, CA

Years-old information on **Sho-Ka-Wah** has been updated.

## San Diego, CA

**Barona** has added four tables of "chipless" blackjack. Players make all betting and playing decisions on a touch screen with a virtual chip stack. A live dealer deals a normal six-deck game using a shoe that can read the cards as they are dealt.

## Tuolumne, CA

Years-old data on **Black Oak** has been updated.

## Black Hawk, CO

**Fitzgeralds** has worsened penetration and now hits soft 17 at all tables.

Dealers at **Isle of Capri** now hit soft 17 at all tables.

**Golden Gates** has worsened penetration.

**Golden Mardi Gras** no longer allows players to double down after splitting at double deck.

## Ruidoso, NM

**Casino Apache Travel Center** has improved shoe penetration

Shoe penetration improved at **Casino Apache Inn of the Mountain Gods**.

## Santa Fe, NM

**Buffalo Thunder** has worsened shoe penetration and converted one table to a Blackjack Switch game.

**Big Rock** converted one of its shoe games to Blackjack Switch.

## Clarkston, WA

**Lancer Lanes** has improved penetration.

## Marysville, WA

**Angel of the Winds** has improved penetration at six deck.

## Seattle, WA

**Silver Dollar Renton** has improved eight-deck penetration.

**Club Hollywood** has improved penetration.

Six-deck penetration improved at **Goldie's**.

**Hooter's South Park** has improved six-deck penetration.

**Hooter's Renton** has improved six-deck penetration.

Double-deck penetration improved at **Roxbury Lanes**.

Penetration improved at **Magic Lanes**.

Six-deck penetration worsened at **Great American Kent**.

**Great American Tukwila** has worsened six-deck penetration.

**Red Dragon** has worsened penetration.

The six deckers at **Parker's** have been replaced by an eight-deck shoe game.

## Tri-Cities, WA

Penetration improved at **Crazy Moose**.

**Classic Island** has greatly worsened penetration and has removed its eight-deck Spanish 21 games.

**Cleo's Island** has closed permanently.

**Cable Bridge** is under new ownership.

## Atlantic City, NJ

Columbia Sussex no longer owns **Tropicana** following a sale to Icahn Capital LP.

**The Hilton** has worsened eight-deck penetration.

## Chicago, IL

A reader reports that **Empress** now hits soft 17 on games on the main floor.

## French Lick, IN

Double-deck penetration worsened at **French Lick**.

## Mount Pleasant, MI

Shoe penetration improved at **Soaring Eagle**.

## Watersmeet, MI

**Lac Vieux Desert** no longer offers four deck and has worsened penetration and now restricts double-deck players to betting on one spot only.

## Gulf Coast, MS

**Beau Rivage** stands on soft 17 at all games with a \$10,000 max.

## Vancouver, BC

**Grand Villa** has added two tables of 6:5 six deck with CSMs.

## Port Perry, ON

Penetration worsened at **Great Blue Heron**.

# Columns

## Column #1

A change from last month (except for a small change in number of tables or betting limits) is denoted by a plus, minus, or asterisk in the second column. Plus means a change for the better, and minus means a change for the worse. An asterisk means a change that cannot be described as for the better or for the worse.

## Column #2

The second column is an abbreviation for the name of the casino.

## Column #3

The third column is an abbreviation for the location of the casino.

## Column #4

The fourth column is the number of blackjack tables. The count is total tables, not just tables that happened to be open when the reporter visited.

## Column #5

The fifth column is the casino edge, the advantage the casino has over a basic-strategy player, in percent. These numbers come from computer simulations using total-dependent basic strategy for the number of decks and rules variations specified. The standard error of each is .01%. If you try to duplicate these numbers yourself, specify a shuffle after every hand.

The + for some California and Texas casinos means you pay a per-hand collection, typically at least 1%, increasing your disadvantage.

## Column #6

The next column is number of decks shuffled together.

## Column #7

The column labeled “cut” shows the number of decks yet unseen when the dealer is undecided on whether to shuffle or deal another round.

For games with a “cut card” to determine the shuffle point, “decks unseen” is the number of cards behind the cut card plus the number of burned cards unseen, divided by 52.

## Columns #8 & 9

The next two columns are minimum and maximum bet size. Some casinos have lower minimums than this on weekdays, and some have higher minimums during the busiest hours.

## Column #10

The last column is comments, which lists deviations from this base set of rules: You lose one bet max to a dealer’s BJ; the dealer does not look at the hole card if the upcard is not an ace, and may or may not look at it if the upcard is an ace; BJ pays 3:2; you may double down on any two cards but not after splitting; you may split any pair; you may resplit any pair except aces to make up to four hands; split aces receive one card each; insurance; and no surrender. Dealer action on soft seventeen is specified.

## Empty Tables

All Mesquite, NV, casinos leave the cards in the shoe when a table empties, instead of spreading them and shuffling for a new player. Apparently the same thing is true of all casinos in Oregon and most in Washington. Casinos elsewhere for the most part remove the cards from a shoe when the table empties, so we are using that as the default procedure. If you find a casino that handles the table-emptying situation different than reported in CBJN, please let us know so that we can update that detail.

## Spanish 21

Spanish 21 is played with a short pack — 10s are removed from each regular deck, leaving aces though 9s and face cards. This is equivalent to starting a shoe with a count per deck of -4, and costs you 2.3% compared to the use of full decks. Spanish 21 has liberal rules, but they make up only part of the cost of removing all the 10s. The casino edge when the dealer hits soft seventeen is 0.76% for six decks or 0.78% for eight decks. When the dealer stands on soft seventeen, the casino edge is 0.40% for six decks or 0.42% for eight decks. Among the more interesting options allowed on Spanish 21 are: your 21 beats the dealer's 21, doubling on two or more cards, hitting or doubling after splitting aces, and surrender after doubling down (called double-down rescue). Reboubling, when allowed, is worth 0.34%. These are the numbers reported by The Wizard of Odds, Mike Shackleford (wizardofodds.com).

## Ad: Green Chip on BJ21

If you have been wondering whether to join the online world and get yourself an email address and start cruising the Internet, here is incentive to do it: green chip on <http://www.BJ21.com>.

Green chip is a private club for card counters. It is more than just a place for swapping stories and sharing blackjack advice; green chip also serves as the social center of the world for card counters. (The busiest page is one devoted to topics other than gambling.) Green chip also has lively discussions of poker, video poker, and craps. There are more than 1200 green chippers.

What do you get if you join green chip? You get a password that allows you to open the green-chip pages of the Internet site BJ21.com. Arnold Snyder has described those pages best: "a never-ending treasure trove of valuable information." Thousands of messages are posted to the green-chip pages of BJ21 every month.

BJ21 also contains a free page, so that you can see what exchanging messages on the Internet is all about

**Parties.** Green chip is also a place for camaraderie. 60 of us get together in Las Vegas each fall for our biggest party of the year. Dozens of green chippers and guests get together annually someplace in Mississippi. Dozens of us party occasionally in the Reno area. A smaller group dines together in Chicago from time to time. Most of the people I currently consider to be my best friends are people I originally met at green-chip parties.

**Post of the Month.** Each month a Post of the Month is selected by green chippers from among all the messages posted to the green-chip pages of BJ21 during the month; the author of the Post of the Month receives a check for \$100. All past posts of the month (starting Oct 1997) are archived; reading them requires a green-chip password.

**10% discount on books.** Green chippers get 10% off on books and software.

**Cost.** The cost of green chip is \$59 per year. Most green chippers prefer to pay by having us charge their credit cards \$14.75 quarterly until they say to cancel. Sign up using the Order Form on BJ21.com.

## No Bust

If you and the dealer both bust, and the dealer busts with a higher total, you push instead of lose. Joker-joker pays 2:1. All blackjacks count as ordinary 21s. There are twelve jokers per six decks; a joker makes a hand count 21. Jokers work on dealer hands as well, and benefit the dealer more than the player because if the dealer's upcard is a joker the players are not allowed to draw.

# Key to Rules

AJ: Ace-jack of spades pays double.

all: Lose all on doubles or splits if dealer has BJ.

col: Casino collects a fee per hand, generally at least 1%.

cs: Casino surrender. Player with a two-card twenty can accept a half win against a 10, if the dealer does not have a natural.

csm: Continuous-shuffle machine.

da: Double down on any two or more cards.

dab: Double attack blackjack. All 10s removed from deck, player can double bet after seeing one dealer card.

ddd: Redouble, i.e. double again after doubling and getting a card.

ddr: Double down rescue, i.e. surrender after doubling down.

de: Double exposure. Dealer's two cards both face up. Dealer wins all ties except BJ against BJ.

ds: Double down after splitting.

dsa: Double down after splitting aces.

ds10: Double down on ten or eleven after splitting.

d3: Double down on first three cards.

d4: Double down on first four or fewer cards.

d8: Double down only on two-card eight or more, including soft totals.

d9: Double down only on two-card nine or more.

d10: Double down only on two-card ten or more.

d11: Double down only on two-card eleven.

es: Early surrender.

es10: Early surrender against 10, late surrender against others.

extreme: Extreme 21. See wizardofodds.com.

fak1, fak2: Games using six or eight decks that can be mistaken for single- or double-deckers.

hide: Dealer shows player cards only when necessary to decide winner.
